

8WX1 SIDE-STACK AK MAG POUCH

This innovative AK SIDE-STACK POUCH holds your AK magazines on their side, to fit the more natural contour of the human form (well, for most of us). This minimizes the profile while maximizing the number of magazines that can be carried.

SKU: FG-PO-N-0051

PRODUCT DESCRIPTION

This innovative pouch holds your AK magazines just a little differently. Due to the dramatic curve on the AK magazine, it is problematic to carry them in a flat profile on a rig as we are used to doing with ARM magazines. By turning the magazines on their side, we fit them to the more natural contour of the human form (well, for most of us). This minimizes the profile while maximizing the number of magazines that can be carried. **FEATURES:** Generous magazine silos to accommodate AK magazine shape Available in Black, OD Green, Coyote Brown and MutiCam **SPECIFICATIONS:** ? 500D Cordura nylon
